Discover Miro...

Powerful lighting control made simple and distinctive

Miro's dimming and scene control capabilities make one-touch control a practical reality for a single room or a whole house. Miro styling extends to wiring devices. Miro functionality integrates with other home systems.

It's the perfect solution for any homeowner looking to combine refined style with convenient control at a refreshingly affordable price.

Intelligent wireless RF lighting controls
Elegant wiring devices
Energy savings with style

Experience the **comfort** and **convenience** of Miro

It couldn't be easier to create just the right lighting for entertaining, watching television and movies or spending time with family and friends. Miro lets you set the stage for living using **intelligent** programmable controls. Extend scene control to lamps and appliances, harnessing **innovative** wireless technology. Reduce your power bills using dimming and whole house controls. From the wall, the tabletop or the palm of your hand, you'll be able to tap into all the functionality of Miro.

Increase your family's safety and security

Whether you hear a bump in the night or simply want to illuminate a path through the house, **Miro is at your command** with one-touch and automatic control options. You'll rest easily, at home and when you're away, knowing that you've selected the **controls to match your lifestyle**. Instantly illuminate your home using PANIC mode or a key fob remote. Or automate your control with a time clock, occupancy emulation or a security system interface.

Showcase *your* home in the best light

You've invested in the finest furniture and artwork. Now add the finishing touch with dramatic lighting by Miro – the finest controls. **Scene control** creates the ideal ambiance for every room. Your choice of Miro styling personalizes your home.

Miro architectural is a classic look with a contemporary flair. **Miro decorator** offers a more traditional design with the same uncluttered feel. Both styles offer screwless wall plates and responsive, spacious control surfaces.

Miro delivers...

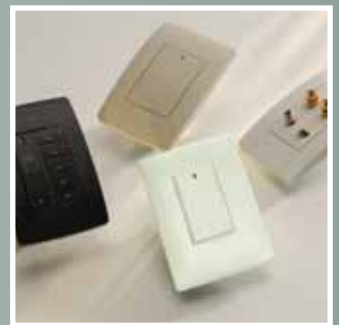

Easy-to-use control for retrofits and new construction

- One-touch whole house ON/OFF for convenience and security
- Whole house and room scene control for just the right lighting on demand
- Sophisticated RF communications protocol (Topdog™) for reliability, simple installation and easy reconfiguration or expansion
- PANIC and vacation modes for peace of mind while at home or away
- Integration options with other home automation devices for customized operation
- Coordinated control of lamps, ceiling fans and small appliances for comfort and convenience
- Choice of architectural or decorator designs to suit your taste
- Architectural receptacles, jacks and devices let you carry Miro style throughout your home
- Reduces light levels for energy savings to be compliant with California Title 24-2005 code
